

Name: _____ Date: _____

Flowers

Anna and her mother planted flowers in the garden all week. On Monday, they planted 8 flowers. On Tuesday, they planted 6 flowers. On Wednesday, they planted 5 flowers. On Thursday, they planted 10 flowers and on Friday, they planted the last 4 flowers.

- Fill in the table to show how many flowers Anna and her mother planted each day.

Day	Number of flowers
Mon.	
Tues.	
Wed.	
Thurs.	
Fri.	

- On what day did they plant the most flowers?
- How many flowers did Anna and her mother plant altogether this week?
 - Write a number sentence for this problem.
 - Use a calculator to find the answer and label the answer.
