

## Baseball Season

John is trying to get into shape for baseball season. He runs 1 mile on the first day. He runs two miles each day for two days. Then he runs 3 miles a day for three days.

- If John keeps following this running schedule, on what day will he reach his goal of running 5 miles in a day?
- How many miles will John have run altogether when he finishes that 5-mile run?

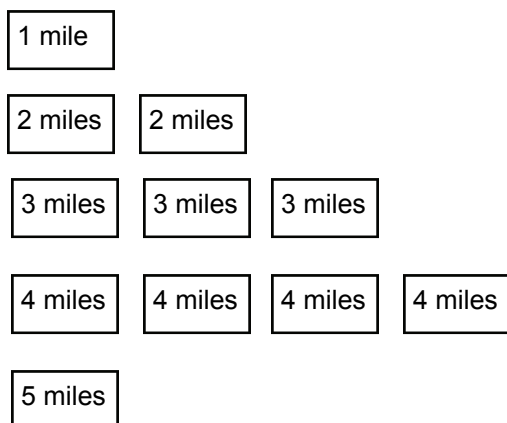

**Answer:**

## Baseball Season

John is trying to get into shape for baseball season. He runs 1 mile on the first day. He runs two miles each day for two days. Then he runs 3 miles a day for three days.

- If John keeps following this running schedule, on what day will he reach his goal of running 5 miles in a day?
- How many miles will John have run altogether when he finishes that 5-mile run?

- I counted the number of boxes and found out that if John keeps following this running schedule, he will run 5 miles on the 11th day.
- I added up all of the miles in each box. John will have run 35 miles altogether after he finishes that 5-mile run.
