

Name:

Date:

The students in Mrs. Kelly's second grade class planted gardens in the school courtyard. The side of each block in the diagram is equal to one foot.

- Sunflowers were planted in Garden A.
- Cucumbers were planted in Garden B.
- Strawberries were planted in Garden C.
- Tomatoes were planted in Garden D.

- Which garden is the biggest? Explain how you know.
- The students need to put fence around each garden because the rabbits have been eating the plants. How many feet of fence will they need for the sunflower garden? Explain how you got your answer.
