### Scoring Note for Penguin Bowling:

- If a student gets all 10 expressions in the time allotted, the student scores a **STRIKE**.
- Mark an X in the small square at the upper right of the box.
- Do NOT write anything in the box until after the next two rounds have been played.
- The student gets 10 points plus the scores of the next two boxes (0-10 each for how many penguins he/she knocks down), making it possible to get up to 30 points for any strike.
- If a student gets a strike in the 5th round, that student plays two more rounds to determine score for 5th round.
